**Willows Animal Sanctuary** is the largest sanctuary in Aberdeenshire and will try to help any animal in distress. We operate a strict no kill policy and only euthanize an animal on veterinary advice. We look after over 300 animals including over 100 horses, ponies and donkeys, approximately 60 cats and dogs and many reptiles as well as over 100 farm animals and birds. We specialise in helping elderly or more vulnerable animals that have already been refused help by large national charities, but we can only continue to help needy animals with your support!

Willows Animal Sanctuary is situated on the road between New Pitsligo and Strichen (B9093).
